REC. AUG 11

Henry T. Caring,

Commissioner of Indian Affairs.

Map 12, 1897.

Explanation:

Owing to the widely scattered distribution of the Hualapai it has been impossible without considerable expense to take a very accurate census of this tribe. The names of all but the heads of families has been omitted in most instances, and where there were two or more boys under, or over 14 or girls over or under 12 they have been carried out in the same line, thus:

" 2 m. s. 0 14 "

means 2 sons over 14 years old
or

" 3 F. 16. W. 12 "

would mean 3 daughters under 12

I realize that this is not the way it was intended that the census should be taken but it is as accurate as I could get it this time and I deem this explanation necessary.

Very respectfully

Henry S. Ewing
